adobe com/readerAbout Ford TractorsFord Tractor history starts with Henry Ford Henry Ford was born in 1863 in Dearborn, Michigan and began experimenting with gasoline engines around 1890.

When he was finally ready to show his tractor to the public, he found that he could not use the Ford name for his tractor because it was already being used by the Ford Tractor Company.. By 1920, the distribution of the Fordson was shifted to the Ford Motor Company Over the years Ford has produced many models of tractors and indirectly continues to this day to be a leading manufacturer in the industry.. Parts list exploded views will also assist you in servicing, rebuilding, teardowns, overhauls, repairs, and adjustments.. This manual contains all the original parts information you need to properly lookup correct part numbers for the entire machine including engine parts.
