About This Game

Ninja Guy, the humorous and quirky ninja action game has now come to Steam! This version includes all new exclusive improvements such as refined gameplay, graphical post effects and Steam Achievements!

Ninja Guy has generated somewhat of a cult following on mobile and has amassed over 70,000 Ninja Guy fans on Facebook!

Now, the Ninjaverse has never looked as awesome with realtime dynamic lights and shadows, gorgeous screen effects, more than twice the amount of enemies on screen and totally revamped gameplay to allow for super fun action using the Joypad or the Keyboard / Mouse!

From a peaceful training village to a hell-like demon world, you control Ninja Guy! You will guide him on his bizarre and epic quest to prove himself to the Holy Cow Sensei by bringing down an evil gargantuan Minotaur! You are Cow Sensei's last hope, and final student .. Will you finally attain your Ninjaness?

Ninja Guy will have you laughing along to his almost never-ending supply of dim-witted Ninja catchphrases, such as the classic "2 + 2 = NINZAAA!" Remember... Gun's don't kill people, Ninja Do!

If you like challenges, then this is definitely the game for you. Take sometimes to get used to the controller but once you mattered it, the game is really fun. It won't take you a lot of time to finish each stage and you can save your progress easily. Highly recommend for busy players, who want to play a game during breaks. Definitely love those bosses in this game.. It's a good game BUT NO ONE PLAYS IT. get it worth the investment but dont play it more than ur main game. The author would have been better off focusing on making one game enjoyable rather than produce these three mediocre attempts at games. This is passable as a tech demo, but nothing more.

Definitely not worth the investment when there are FAR more enjoyable experiences to choose from at this price point.. The controls take a little time to get used to, but once you get into it, its really fun.. Stay away from this game. I got really nauseous and actually vomited after a few hours of game play. The controls suck where you constantly have to switch between first and third person perspective.

A charming VN with excellent artwork.. I bought this game on a whim to try out something new in a genre that I usually don't play all too often. I found the art work enjoyable and the environment pleasant to look at. How the timing works is interesting, as you have to race to beat the clock or you "die". There are also the leaderboards that give you a sense of accomplishment when you complete the level faster than others. The levels were challenging but not impossible and the gameplay fun and interactive, the use of a controller is recommended. 9/10.. Very short, but good little VR experience. No reason not to give it a go.

I played it in Oculus, with two sensors, a third is probably needed to get the best out of this.. Decent maps, good addition to the already lacking map diversity.. This game is so SH*T! Still better than FIFA or PES though.... 99% of the "difficulty" in this game lies in interface screw -- which is made even worse by "retro mode" which is required for one achievement. If not for invisible blocks, and secret you have to cross this square twice blocks, etc, this would not have any difficulty whatsoever. Poor excuse of a game.. Probably the top 1 or 2 release in the Romance of the 3 Kingdom series.. Don't buy this!!! Open world in this game - 7 npc and 50 mobs. 100% trash.. Interesting puzzle game, with simple mechanics and levels that really make you think.. A unique puzzle platformer where you can draw lines into existence with various properties. It lacks polish in terms of presentation, but it succeeds with its gameplay and is well priced.
